NOTICE TO OFFERORS

ADDENDUM NO. 2

QQ-01379

The following changes and/or additions shall be made to the original Request for Proposal No. QQ-01379, Aquatic Scoreboard and Timing System. Please acknowledge receipt of this addendum by signing and returning with your proposal.

1. Please see the attached drawing of the existing conduit for the scoreboard.
2. The following are questions received on the solicitation:
  - Q. Can you please provide a picture of a scoreboard similar to that of what the County is looking for?
    - A. Yes. Please see the attached pictures.
  - Q. Where does the County want the Event/Heat and Home/Guest panels to be? Is this to be one panel or two?
    - A. This is one panel and is to be on top.
  - Q. Is the enclosed panel white with Center name a sign panel rather than a scoreboard panel? Will it go on the top or bottom?
    - A. It will be white with the center name as a sign panel.
  - Q. Is the scoreboard intended to be fixed or portable?
    - A. Fixed.

Q. Does the County intend to have double ended timing for 50m events or single ended timing for 25m events?

A. Single ended timing for 25m events.

Q. One section of the RFP indicates equipment is needed for up to 12 lanes of events however the majority of the RFP indicates 10 lanes. Which is correct?

A. 10 lanes. The County will only have 10 lane events, however the extra two are to be used as backup in the event of user error or damage during event installation.

Q. Where will the scoreboard be installed—the side wall directly across from the spectators (about 1/3 of the way down the pool from the diving board end) or corner mounted?

A. The scoreboard location shall be centered on wall behind diving boards. Power supply is available at the base of the wall.

Q. Does the County want a water polo horn?

A. No.

Q. What is the quantity of touch pads?

A. 10.

Q. Do you want a scoreboard to provide 8 digit or 10 digit scoring?

A. Provide pricing in your proposal for both options.
